

問題

以下のテキストを読み、それに続く二つの問いに答えなさい。

Andrew Bick's paintings are shaped by carefully balanced interplay between free and geometric forms. In his technically complex pictures constructed from multiple layers, this artist harmoniously combines drawing and painting, line and plane, transparency and opacity, the colourful and the pale, as well as glossy and matt surfaces. Geometric coloured forms overlap gesturally applied elements and shape-edged structures. Covered with translucent Perspex or partially coated with layers of wax, his pictures unite seemingly contradictory painterly qualities.
